NOTE: Subject, a U. S. citizen, departed illegally into Cuba in July, 1961. We attempted to interview subject upon his return from Cuba, however, he declined to talk to the FBI unless in the presence of his attorney. Subject's name is maintained on mailing list of Fair Play for Cuba Committee and he was speaker at function sponsored by FPCC. He attended meetings of Student Council of New York School for Marxist Studies during 1962 and also founded a quarterly magazine allegedly financially supported by Cuban Government. He has been committed to mental institutions and has been diagnosed as schizophrenic with violent reactions, reportedly incurable. He is addicted to narcotics. He was recently arrested in Morocco and subsequently deported to the U. S. New York has verified his return to the U. S. and recommends interview of him in view of alleged statement re assassination of Kennedy. Data reported by State to date re reason for arrest does not warrant our interview of subject in view of his mental condition, and since previous attempt to interview him proved unsuccessful. In addition, investigation conducted in Oswald case and instant case failed to show any possible connection between the subject and Oswald.
